

First Announcement:
**Hands-On Rigid Ureteroscopy,
Laser and Stenting Course**
An Institute of Urology Course
Monday November 1st 2010

20 Places, £100 registration fee

This one day course is designed for junior trainees. It consists of case discussion, live surgery demonstration, lectures and tips and tricks in getting out of difficult situations. There will be hands-on experience with rigid ureterorenoscopes and every candidate will have the opportunity to laser stones and remove fragments with baskets within in vitro urinary tract models.

To be held at:

Education Centre, University College Hospital, 250 Euston Road, London NW1 2PG
